AboutMe

I am a developer passionate about learning and teaching new skills.

ProjectApplication

TO DO LIST (<https://bit.ly/2XDIZIX>)

Based on old fashion paper and pencil to keep you on task, this simple to-do-list, but versatile, will help you to complete your task without thinking where the list is.

Used EJS template with node.js and mongoose to create this simple web application.

Simon-Game (<https://bit.ly/2LYqYaM>)

A simple game. You have to memory the pattern from beginning.

This is part of coding challenge using jQuery.

Web Blog (<https://bit.ly/32m4579>)

Based on an old fashion "Dear Daily" come this amazing "Daily Blog" to help you compose and distress your day.

Use EJS template, node.js, and mongoose, and passport with the help of Bootstrap to bring you this simple secret blog application.

Newsletter Sign Up (<https://quiet-basin-11485.herokuapp.com/>)

Use Mailchimp API to create a simple, yet elegant look using bootstrap and css.
